M'LEAN BREAKFAST DRY

Lack of Liquor at Annual Easter Event of Rich Washington Publisher Causes Sensation

WASHINGTON, April 2. (Exclusive)—Washington experienced a new prohibition sensation today when it became known that the Easter morning breakfast at the Friendship estate of Mr. and Mrs. Edward Beale McLean, an annual affair attended by 150 leaders of official and unofficial

McLean, an annual affair attended by 150 leaders of official and unofficial life at the capital, was strictly bone dry for the first time.

It took two days to put this fact posed of their wraps and gathered into general circulation, for the reason apparently that those present were too shocked or too surprised to tell about it at once. But now that the news is out the incident assumes importance greater even than the allegations concerning two dry-voting Congressmen who are charged with smuggling liquor into this country.

It is halled everywhere as evidence that the "Hoover influence" is going to dry up Washington society and make it are expelled.

Lean cellars. Luncheons and dinners there in the last ten years had been traditionally wet, although as legal as similar affairs at the embassies, for McLean had the money and foresight to anticipate prohibition.

Most dinners of importance Washington nowadays are dry for the reason social leaders fear that White House ostracism will be visit-ed on those who serve liquor. But no one imagined that the new order of things would apply at Friendship. THIRSTY WAIT The McLean guests arrived, dis-

ners and receptions never have made much progress for the reason members of Congress and everyone else knew liquor was served in a great majority of the best homes in Washington and felt Americans should set the example. But now that "Ned" McLean's table has gone dry there is no telling where the thing will stop, those who would like to shut off embassy good cheer have an additional argument and the social pressure on the foreign diplomets is likely to become very strong, indeed. come very strong, indeed.

He said a danger zone is being established at Naco, Ariz. where bombs from a Mexican rebel airplane fell this morning, in an effort to prevent any casualties among Americans.

"If armed forces cross the border in such numbers that civil authorities are unable to cope with them, the Army will take action," Gen. Lassiter added.

With regard to the Naco incident, Col. Robert McLeave, corps area chief of staff, said "There is a vast difference between accidental and intentional bombing of a neutral power's territory."

SLAYER IN RAID HELD BY JURY

De King Tells Dramatic Story of Killing

Boy Disputes Testimony of Deputy Sheriff

Warrant Used in Search Declared Illegal

GENEVA (III.) April 2. (P)-A Coroner's jury today recommended that a deputy sheriff who shot and killed an Aurora woman during liquor raid be held to the Kane county grand jury for prosecution on a charge of manslaughter.

The jury reached its verdict after spending the day hearing witnesses tell of a raid on the night of Mai h 25, last, on the home of Joseph De King of Aurora, during which De King was beaten into unconsciousness by Deputy Roy Smith, who also shot Mrs. Lillian De King. Gerald De King, 12 years of age, then shot and wounded the deputy who had killed his mother.

told the raisers that he was proprietor.

"Then," asid Gerald, "one of them went to the basement and came back up as big as you please with some wine daddy had there."

The boy said he awoke his father, who told the raisers to get out or show a search warrant which he said they falled to do. His father took one of the deputies and pushed him out and the others left and returned later with other officers, related the boy.

JUST SHOT, SAYS BOY

He said he snawered the door when they knocked the second time. "I didn't want to let them in, but Smith pushed by me," related the witness. "I tried to get to dad but Smith pushed me away. Then I tried to get to the other side of the table but Smith beat me to it and hit dad over the head with his gun and dad fell. Then he shot mother and mother fell, then I picked up a revolver and shot him and he fell. I didn't aim, I just shot. I got a wet rag and washed daddy's face, then they took both mother and dad away."

Joseph De King, the boy's father, was as dramatic in his testimony, Pacing back and forth on the stage of the village hall, he mapped out the scene in his home when the raiders arrived. When they failed to show a warrant. De King said he fired his pistol in the air as they left. When they returned, De King said, he smatched two pistols and started to back to the door and was struck over the head. He heard two shots and saw his wife fall, then remembered his son washing his face. He said he was dragged from his home by officers who handcuffed him, one of them remarking, "Let's give him another one."

Only the fact that Capt. Robert Johnson, who has been in charge for the past nine years, was forewarned by lesser slides which preceded, prevented the loss of human lives.

He got his men out of the way in ample time after moving to places of safety a \$3000 power launch, a \$15,000 power cutter and a \$1000 sloop-riged lifeboat. Only the seaward end of the pier was left standing.

GRADE CROSSINGS GAIN IN RECORD OF DEATHS

WASHINGTON, April 2. (A)-Reports filed with the Interstate Com-merce Commission by the railroads show that 2568 persons lost their lives in highway grade-crossing ac-cidents in 1928, an increase of 197 over the previous year. Persors injured in such accidents numbered 6867, as compared with 6613 in 1927. Accidents occurring at highway grade crossings were placed at 5800, which was 160 more than were reported a year ago.

The jury in its verdict termed the shooting unnecessary and held the warrant on which the raid was made illegal.

Gerald, slim, fair-haired and dressed in knickers, was the principal witness at the inquest. He told how he had shot and wounded smith after watching the deputy club his father into insensibility and shoot and fatally wound his mother.

"I just picked up a revolver and shot him," said the boy without a quiver in his voice. "I didn't aim I just shot."

In one vital point the boy's testimony disputed that of the deputy. Smith, from his hospital cot in Elgin earlier in the day, had told the Jury Mrs. De King was pointing a pistol at him when he stumbled and shot her actidentally after the boy shot him.

Chairman Smoot of the Senate Finance Committee declared the \$100,000,000 margin was not sufficient to begin a new tax-reduction measure. He declared that appropriations authorized by Congress at the last session will almost consume this prospective surplus. GAMBLERS MAY LOSE

"Moreover," he said, "most of the profits going to make up the increased taxes received this year by the government were made on a rising stock market. What goes up is apt to come down. We face the prospect of having taxpayers deduct losses if there should be a decilning stock market. The government cannot gamble on such a contingency."

Senator Smoot agrees with Secretary Mellon that if another tax pevision is made attention should be given to a cut in the rate on earned incomes. But he does not want even this tax revision considered at this time.

The Utah Senator, an administration financial expert, does not believe tax revision can be considered at the next regular session, beginning in December. Future revision, he said, might depend upon increased business in the country. He saw no opportunity for reductions in government expenditures.

There also is notable this month an increase in practically all other sources of government revenues, customs receipts for the month having reached the total of \$55,000,000, or about \$7,000,000 more than in March, last year, while miscellaneous Internal Revenue items brought in more than \$50,000,000, slightly more than those during the same period last year.

The indications now satisfy Treasury officials that estimates of receipts for the current fiscal year ending with July 1 will be exceeded in nearly all branches by the realization, and that the national debt, which gets the advantages of all government surpluses, will be reduced still further by July 1.

OPINION RENDERED

Meanwhile Secretary Wilbur, exofficio chairman of the Conservation Board, has in his keeping an opinion from Atty.-Gen. Mitchell on the legality of this compact, which he intends to announce to the committee at tomorrow's session.

As a member of the board, which was appointed by President Coolidge, Mr. Hoover made a thorough study of the oil situation, which has led him to the conclusion that the solution both as to overproduction and exhaustion of natural retainments and intensive drilling. Indiscriminate and intensive drilling, the study revealed, leads to waste while through regulation the maximum output of a pool can be realized.

To look into possible means of regulation, the board appointed a committee consisting of representatives of the oil operators, the American Bar Association and the Fed. ican Bar Association and the Federal government which reported that the government has no basis of action and that the solution lies in legislation by the individual States. The oil operators proposed to limit production by agreements among themselves, notably that arrived at by the Petroleum Institute which would hold production during the present year to the output of 1928. Proposals of this character were criticised from the start as being, in violation of the Sherman anti-trust law and this view was faken in violation of the Sherman anti-trust law and this view was taken by the committee appointed by the board to investigate means of reg-ulating drilling.

Secretary Wilbur conferred at length today with President Hoover, preparatory to the meeting tomor-row and they went thoroughly into the situation.

More Tonnage Shipped East Than Comes In

Survey of 1926 Completed by Commerce Department

Fruits and Oil Form Bulk of Commodities Sent

WASHINGTON, April 2. (Exch sive)-The importance of the Pacifc Southwest as a source of supply for other sections of the United States is shown strikingly in a sur-States is shown strikingly in a survey of rail and water shipments into and out of that territory just issued by the Commerce Department. This survey which w.s made by Dr. Robert J. McFall, formerly of the domestic commerce division and now editor of the department's Survey of Current Business, is an experimental application to specific regions of this country of the same type of trade analysis as is available for the foreign trade of the United States and other commercial countries. When the Pacific Southwest a few

When the Pacific Southwest a few decades ago was in process of establishing itself economically the tonnage entering this area from the East was markedly greater than its eastbound shipments. Today, however, the situation is reversed, and nearly three times the tonnage moves out to the East as is received from the East. In 1926, the year covered by the survey. 13,595,000 tons of products were shipped out of the Pacific Southwest area, as compared with 5,239,000 received, a net favorable tonnage balance of 8,356,000.

MUCH GOES BY WATER MUCH GOES BY WATER.

There is considerable trade exchange between the Pacific Southwest ports and the Gulf and Atlantic Coast ports of this country, and through them with inland domestic centers. In 1926, 43.5 per cent of westbound tonnage of the area studied, and 41.27 per cent of eastbound tonnage was moved by water.

Fruits and vegetables, minerals.

of estbound tomage was moved by water.

Fruits and vegetables, minerals, lumber and raw material in general, whose weight is large in relation to value, form the typical eastbound traffic. In point of weight, however, manufactured products moving eastward were much greater than those coming into the area from the East, although the bulk of Pacific Coast manufactures is made up of gasoline and other petroleum products.

The petroleum industry in 1926 accounted for more tons of freight shipments than all of the agricultural and animal products of the region combined, these ahipments amounting, respectively, to 1,863,000 tons of crude and 2,875,000 tons of refined petroleum. Agricultural tons of crude and 2,875,000 tons of refined petroleum. Agricultural products followed petroleum in tonnage shipped with 3,866,000 tons. Of this quantity 835,000 tons were grapes and 705,000 tons oranges. Among manufactured products other than petroleum, canned goods led with a total of 639,000 tons of which about two-thirds were canned fruit, preserves and jellies.

SHIPPED TO ALL STATES

SHIPPED TO ALL STATES

California's products, the survey discloses, are shipped to every State in the union. Pacific Coast lemons and oranges are sold throughout the country in large quantities, 136,-000 tons of oranges being shipped to New York State alone in 1926. Though a large shipper of petroleum products, the Pacific Southwest imported in the year under review many thousands of tons of lubricating oils from the East.

The States included in the present study are California, Nevada, Arisona, Utah and New Mexico. No attempt, it is pointed out, has been made to draw conclusions as to the effect of existing conditions in the freight traffic of the Pacific Southwest. It is believed, however, that the statistical data which have been compiled for the first time in this report may be of use in the study by business interests of ways and means to increase efficiency in distribution into and out of that area.

Delhi Land Settlers May be Paid for Land Tracts

SACRAMENTO, April 2. (P)-Reimbursement of persons who in-vested in the Delhi land settlement which the State plans abandoning has been tentatively suggested by State officials. The plan set forth at a meeting held last night be-

state omcials. The plan set forth at a meeting held last night between Gov. Young, A. R. Heron, Director of Finance and representative Delhi settlers.

The plan as explained by Heron provides for reimbursements covering original purchase money, interest and appraisable improvements.

Money for repayment of settlers desiring to withdraw from the colony would be forthcoming from an appropriation authorized in the bill introduced by Assemblyman Adams. The bill calls for creation of the division of land settlement in the State Department of Agriculture and establishment of a land-settlement advisory board consisting of State directors of finance, public works and agriculture.

The State will lose \$735,000 if every settler accepts the offer, it is said, and will be further obligated to pay \$241,000 loaned by the Federal Land Bank, but will be in possession of the original 8600 acres which comprise the colony.

"Mother, why haven't we a piano?"

YOU know what pride your little girl takes in her home. How she likes to brag, "My mother's the prettiest mother there is!" Naturally, she's going to feel hurt and ashamed if her playmates can say, tauntingly: "We've got something you haven't got; we've got a piano." Or if she notices that the neighbor's piano is nice and new-looking and shiny, while her own is clumsily old-fashioned.

A new Knabe Mignonette Grand is an instrument which both you and the children will be proud of. Its handsome appearance, as well as its glorious music, quickly arouses admiration. It will enrich your living room, give your youngsters every encouragement to develop their musical talent, provide many gay evenings of home entertainment.

Drop in today and hear the magnificent tone of the Knabe in the new Mignonette model, so small and dainty that it measures only 5'3". Its wood is richly grained mahogany. \$1475. With the Ampico, the supreme reproducing instrument, \$3050.

******************** BABY LIVES WITH NECK BROKEN

Police surgeons battled all last night to save the life of 2-yearold Billy Perbes, who broke his neck when he fell two stories from the window of an apartment at 1165 ½ North Edgemont Drive. The a slight chance that he may live, doctors say.

That the baby was not instantly killed is considered miraculor

by the Hollywood police, who rushed him to the Dickey & Cass Hospital. The child, with his mother, Mrs. Harold Forbes, 123 East Seventy-fifth street, was visiting Mrs. W. C. Hunt at the

dlywood address.

The baby was left to play in the front room of the house alone while the mother and Mrs. Hunt chatted in the kitchen. A few minutes later Mrs. Forbes returned to the front room just in time to see the baby push out the screen and disappear over the sill. She screamed and ran down the stairway. The baby had landed on the back of his neck.

The baby's neck was broken in two places, surgeons said. Con-

stant massaging was resorted to while the doctors worked plaster cast to incase the child's head and neck.

Police Surgeon R. J. McDonald had charge of the case. He declared the injury unusual and that the baby has but a bare chance to live. No bones other than the neck vertebrae were

Dr. Werbik, who won fame in 1927 through his discovery of the Dutch painter, Jan Van Os's, "Lady With the Flowers," in the Young Memorial Museum in San Francisco, believes that an imposing name attached to a painting does more to attract buyers than the work itself.

"There are in America artists whose work is far superior to the fake copies of old masters that a majority of people purchase in Enrope as original," the critic asserted.

Southern Pair Duel to Death

WAYNESVILLE (N. C.) April 2. (P)—An old rivalry for the hand of a lumber-camp boarding house keep-er was blamed today for a gun duel er was blamed today for a gun duel that pitched two men on their faces dead within ten feet of each other.

Joe Ray, 43 years of age, of Waynesville, and Walter McCracken, 36, of Crabtree, mad quarreled frequently, police said, and their threats against each other's life had been free, Yesterday they met.

"I'll take no more bluffing," the few witnesses quoted McCracken as saying as Ray advanced with a drawn pistol. McCracken drew his gun, too, and both fired almost simultaneously.

Ray fell dead with four snots in his head and body. McCracken died with two bullets in his head.

mier, Benito Mussolini, had a long conference in Florence today where, in the words of an official communique, they "again reaffirmed the cordiality of Angio-Italian relations and found themselves in perfect agreement on all of the most important political questions interesting their countries."

The meeting occurred at Chamberlain's villa at Bagnia Bipoli, on the outskirts of Florence, where the British Foreign Secretary is visiting Lady Chamberlain, who is spending some months there with her daughter and son. Dino Grandi, Italian Undersecretary for Foreign Affairs, also was present at the meeting.

MUSSOLINI ARRIVES

Mussolini passed the Easter vacation at his estate at Carpena, near Foril, with his family. He left this morning for Florence, piloting his own fast racing car. He arrived at Florence at 11 o'clock and went immediately to Chamberlain's villa, where he was joined shortly afterward by Undersecretary Grandi, who had come from Rome by train. The conference which followed lasted more than an hour, whereafter Mussolini offered Chamberlain and his few chosen guests an intimate luncheon of sixteen covers in the Castle Montalbancone, one of the historic structures in Italy datin, from the time of Charlemagne. Immediately afterward Mussolini proceeded to Rome by car.

Nothing is known, of course, of the subjects discussed by the two Foreign Ministers beyond the vague hint contained in the official communique which speaks of the "general situation" and "all of the most important political questions interesting their countries." All reports

PANY OF CALIFORNIA

WHAT PRICE-CLASS?

Unfortunately people have grouped cars into "price-classes." There is the "\$1000 price-class," the "\$1500 price-class," the "\$2000 price-class," and so on.

This informal classification is a misleading and harmful one. It lays entirely too much emphasis on the relatively unimportant first cost of any car and none on the very important cost of ownership and use.

The important thing to consider in buying a car is the cost of owning — not the cost of buying.

Paying for a Packard Without Owning One!

There are literally tens of thousands of people who delude themselves about what they can and cannot afford in motor cars. They are sure they cannot buy a car costing over a certain sum. Their habits of thought have become pigeon-holed in a "price-class."

We know that these good people delude themselves because we have already convinced thousands just like them that they were wrong. That is where Packard's enormously expanding business is coming from — from those who have always wanted Packards but just recently learned they could own them at no extra cost.

If you have been in the habit of paying ten or twelve hundred dollars or more for your motor cars, then you are probably in the Packard "price-class" without knowing it. You are very likely paying for a Packard without owning one!

It can be demonstrated to you that you may own and drive a Packard Eight at no greater cost, over a period of four or five years, than the expense of owning your present "price-class" car.

Most of the items of cost in oper ating a car are the same as between a Packard Eight and any car down to half the cost of a Packard. Garage cost is the same. A wash and polish cost the same. Gasoline and tires substantially the same. Repairs cost no more because of the quality of the car and its lubrication protection. And if you will use even half the mileage we build into your Packard your depreciation charge will be so low that the saving will completely offset the original cost difference.

Most of our owners keep their Packards twice as long as they ever kept other makes of cars. We know because we get nearly all of the Packards back—when they are turned in on new Packards. These owners drive their Packards at no extra charge!

The Packard Eight Has No Price-Class

The Packard Eight is not in a "priceclass." We build it as well as a motor car can be built. No finer car is built in the world today. We build it to last. And we price it fairly for the value we give. For example, the Packard Standard Eight 5-passenger Sedan costs \$2275 at the factory.

Then we protect the investment of our owners. No radical changes have depreciated Packard cars from year to year. Our owners keep their Packards—and enjoy keeping them—twice as long as they have been in the habit of keeping cars built to sell in any certain price bracket.

If you want a Packard Eight—buy one! You may buy it on time—and there is no better investment. Then keep it and enjoy its beauty, its comfort and its luxury for three or four times the payment period.

Remember you are very probably paying for a Packard no matter what car costing over \$1000 you may be driving. Our Packard salesmen everywhere have the facts and will gladly give them to you.

You can own a Packard.

SWAPS IN SIGHT

SWAPS IN SIGHT

This augurs early offerings of American programs to the Canadian listeners directly from their own stations and of Canadian talent to listeners in the United States through stations on this side of the border. Thus far the listeners on either side of the boundary have been able to "swap" mostly by tuning in high-powered stations or stations near the børder which could be heard most consistently.

Neither the problem of line tolls nor "tariffiess advertising," peculiarly enough, present the chief drawback to, the oft-proposed Canadian hook-ups with the more highly neveloped chain broadcasting systems of the United States. The thing the Canadian stations are protesting against loudest is the heavy copyright royalty fee that the American Society of Authors. Composers and Publishers wants to exact from Canadian stations using its music.

A test court case between the society and certain radio interests in Canada that are unwilling to pay annual fees such as are paid by American stations is imminent, according to well-informed advices. Stations in the United States pay annual royalty licenses to the society ranging from \$500 to \$25,000.

REFORM SCHOOL LINES RUSH ADJUNCT VOTED SURVEY FOR RAIL LINK

New Institution Five Engineering Parties of Great Northern and Western Pacific in Field

SAN FRANCISCO, April 2. (A)-

ESPEÉ DECLARES

SAN FRANCISCO. April 2. (Exclusive)—Mileages of existing railroad routes between the markets of California and the Northwest and of the new line now under construction between Klamath Falls, Or., and the East are shorter than the mileages of any route that can be opened by the proposed Great Northern-Western Pacific construction of 200 miles of line from Klamath Falls to Keddie, Cal., according to J. H. Dyer, vice-president of the Southern Pacific.

Comparison of the mileage over existing routes and the route created by the proposed construction of the Great Northern and the Western Pacific shows that the mileage over the present line between here and Portland is '162 miles shorter, according to Dyer. Similarly, the shortest existing line from here to both Klamath Falls and Spokane is 77.7 miles shorter than the route created by the building of the proposed line.

Sunday Sports Given Approval in Little Rock

By a majority exceeding 3 to 1, Little Rock voters today declared for Sunday baseball and placed the reins of the city government for the next two years in the hands of a 28-year-old Mayor.

Pat L. Robinson, youthful City Attorney, was overwhelmingly elected Mayor over an independent candidate. Robinson was the Democratic nominee, which in Little Rock is tantamount to election. He will be the youngest Mayor in the city's history and one of the youngest in the country.

SEPARATE BILL Long Beach this session desired

Long Beach this session desired an armory to house its National Guard. The administration appeared adamant and refused to include it in the 1931 budget. Instead it was included in the so-called tender of Merriam of Long Beach thereupon of the Merriam of Long Beach thereupon building program. Senator Merriam of Long Beach thereupon building for the structure.

When the budget came on the floor of the Assembly two weeks ago assemblyman Keaton of Long Beach offered an amendment including the Long Beach armory. With twenty absentees Mr. Keaton obtained to the disgust of the administration. The bill then went to the Senate where Senator Inman, administration leader, managed to get the finance committee, of which he is chairman, to send the measure to the floor without the Long Beach item. Thereupon Senator Merriam reamended the bill on the floor to include the Long Beach item and obtained twenty-six votes for his proposition. This was too much of an advantage for the Governor's forces to overcome and after some ineffective jockeying, they gave up and the bill went to the executive deck for signature.

destroys them WINNING smiles depend on glorious white teeth . . . and teeth like that depend on freedom from what dentists know as film. Film is a stubborn, clinging coating that ordinary ways fail to remove successfully. It is the chief

source of serious tooth and gum disorders.

Remove film with the special scientific denti-frice called Pepsodent

Film-how it destroys You can feel film with

your tongue-a slippery, viscous coating. It clings to teeth and gets into crevices and stays. It absorbs stains from food and smoking to turn white teeth "off color" and cloud their brilliance. Film hardens into tartar. Germs by the mil-

lions breed in it, and they, plus tartar, are the chief cause of pyorrhea.

To remove film dentists prescribe the special film-removing dentifrice called Pepsodent. It acts to curdle film so that brushing easily removes it in gentle safety. In a few days teeth grow whiter and begin to

sparkle. They continue to improve for months.

Start today. Get Pepsodent at any drug counter or write for free 10-day supply to The Pepsodent Co., 1104 S. Wabash Avenue, Chicago.

determined by engineering methods. The methods used are definite . . . scientific. Chemical and physical properties of gas have been analyzed . . . and the geological factors which control its accumulation are understood.

It is a recognized fact that the escape of gas from its underground reservoir is accompanied by a proportional reduction in gas pressure . . . This forms the basis for computing the amount of gas a field will ultimately produce.

Relating the pressure and the volume of gas extracted from a field, by means of Boyle's Law, the number of cubic feet underground is gauged. A thorough-going analysis of the market requirements is made. The number of years that the gas reserve will supply its market is then determined simply by dividing the total reserves by the annual demands.

A knowledge of these precise principles has proven the strong foundation upon which this utility is permanently

Fox Film Corporation

6% Gold Notes

Due April 1, 1930

Price 99 and Interest, yielding about 7.05%

A letter from Mr. William Fou, President of the Corporation, is summarized as follows:

tiness: Fox Film Corporation is one of the largest companies in the world engaged in the production, distribution and exhibition of motion pictures and has 130 offices throughout the world. Its production embraces fea-ture pictures, both silent and in sound, educaa week "Fox Movietone News" service.

In the talking motion picture field the Corporation features "Fox Movietone", the eading sound-on-film system. This method of producing all-talking sequences in feature pic-tures is also utilized in the production of "Fox Movietone News", which has attained a great popularity with motion picture audiences.

Equity and Assets: As at February 23, 1929, the Consolidated Balance Sheet of Fox Film Corporation and Subsidiary Companies, after giving effect to this financing, as prepared independent auditors, reveals net tangible assets of approximately \$71,053,000, an amount equivalent to \$5,921 for each \$1,000 of Notes, and net current assets of \$18,743,000. The Class "A" Common Stock of the Company is listed on the New York Stock Exchange and, based on current quotations, has a market value in excess of

65,000,000. The Notes: These Notes, in the opinion of counsel, will be a direct obligation of the Corporation, which covenants in the Notes that so long as they shall be outstanding, it will not create or assume, or issue any indebtedness, except unsecured obligations arising out of current operations, and unsecured bank loans for current operating accounts made in the usual course of business, maturing not more than 120 days from the date on which such obligations were incurred or such loans were made, as the case may be,

Earnings: The Consolidated Earnings of Fox Film Corporation and Subsidiary Companies, available for interest on these Notes, after all charges, for the two fiscal years ended December 29, 1928, as reported by independent auditors, is given below:

1927 (53 weeks) \$3,370,556.72 1928 (52 weeks) 6,473,092.70 Annual interest requirements on this Issue.....

The above earnings for the year 1928 do not fully reflect the employment of funds received by the Corporation from the sale of 153,444 shares of its Class "A" Common Stock at \$85 a share, offered to stockholders of record as of October 1, 1928.

Management and Organization: Fox Film Corporation is under the management of William Fox and associates, men of long experience in the motion picture business. Mr. William Fox is also President of Fox Theatres Corporation which has acquired a substantial stock interest in Loew's Incorporated, who produce, through a wholly owned subsidiary, Metro-Goldwyn-Mayer Pictures.

A circular fully descriptive of this issue will be sent upon request

CAPITALIZATION

Mr. Ross McIntyre: President of MacMerr Stores, Inc., has summarized his letter dated March 23, 1929, regarding this 7% Preferred Stock with Common Stock Purchase Warrants, as follows:

ORGANIZATION: MacMarr Stores, Inc., a Maryland Corporation, has acquired, directly or through subsidiaries, the assets and business of International Sales & Produce Company, "Marr's," a chain of grocery stores operated by Charles E. Marr, individually, Stone's Cash Stores, Inc.: Consolidated Stores, Inc.: Eagle Stores, Inc.: The properties thus acquired comprise 387 grocery stores, of which 23 include meat markets, located in California, Washington, Oregon, Idaho and Montana, and eight warehouses in connection therewith.

SALES AND EARNINGS: The combined net sales of the predecessor companies and the net earnings for the three years ended December 31, 1928, applicable to the assets actually acquired by MacMarr Stores, Inc. and subsidiaries, after reducing executives aslaries to basis of present contracts (such reductions amounting to \$24,537.20 in \$926, \$61,619.72 in 1927 and \$65,347.15 in 1928) and after Federal Income Tax at 12%, as certified by Messrs. Peat, Marwick, Mitchell & Co., were as follows:

Years Ended December 31 \$236,444 358,768 1926..... 259 2.09 \$12,223,415 1927..... 357 17,034,754 20,304,201 1928...... 387

FINANCIAL CONDITION: The pro-forms consolidated balance sheet of MacMarr Stores, Inc., and subsidiaries, as of December 31, 1928, giving effect as at that date to the formation of the company and other transactions mentioned therein, as certified by Messrs. Peat, Marwick, Mitchell & Co., shows total net assets of \$2,299,011 and net current assets of \$1,730,793. PURPOSE OF ISSUE: The proceeds of this issue of \$1,614,600 of Preferred Stock have been used in part payment for the acquisition of

COMMON STOCK PURCHASE WARRANTS: This 7% Preferred Stock will be accompanied by Warrants entitling the holders to purchase on or before December 31, 1933, at the price of \$30 per share, one full paid and non-assessable share of Common Stock without par value for each share of Preferred Stock.

PROSPECTIVE ACQUISITIONS: The above information has to do only with the assets, sales and earnings of the properties actually acquired. We have now under contract additional chains of stores, which should bring our total units actually acquired to more than 800 by July 1st. With our present volume of business of over \$20,000,000 per annum we rank second among the grocery chains West of the Mississippi. When the acquisitions above referred to are consummated, our annual sales will be more than \$40,000,000. On March 27, 1929, MacMarr Stores, Inc., acquired the assets and business, subject to liabilities, of Piggly Wiggly Company of San Joaquin Valley, through the issue of 22,000 shares of Common Stock.

MANAGEMENT AND FUTURE: The companies acquired and to be acquired by MacMarr Stores have been chosen not merely because of past results or territory served. In every instance more consideration has been given to the character and ability of those responsible for the development of these chains than to any other single factor. I believe that few chain store systems of our size have so many thoroughly qualified executives, and my conviction is that with their larger opportunities they will be able to show even better results in the future than they have in the past.

The statements contained above are obtained from sources which we believe reliable, but in no event are such statements to be regarded as representations by us or as guaranteed by us.

Legal proceedings have been approved by Mesers. Chafbourne, Hunt. Jaeckel & Brown, New York. for the Bankers, and Mesers. Joseph, Haney & Littlefield,
Pertland, Oregon, for the Corporation. Audits by Mesers. Peat, Marwick, Mitchell & Co.

Price \$110 per share and accrued dividend

Dear Mr. Levett:
Allow me to congratulate
you for the wonderful advice
sent to your clients. When I
received your first letter
stating that a reaction in the
market was near, I received
a letter at the same time
sent out by a so-called Investment Counselor asking to
ignore the prediction made vestment Gounselor asking to ignore the prediction made by you and buy stocks. On March 14th I received your letter dated March 13th, in which, in the most emphasic way you simply stated, "sell immediately all stocks and stay out of the market." For Bureau has always followed those sent by you, and in this case, while you advised to sell and stay out of the market, they advised to buy all that was possible. The break of last week stands out to show plainly enough what kind of service can be expected from you and what from the others.

Beach Oil Lease Ban Approved

SACRAMENTO, April 2. (AP)-The SACRAMENTO, April 2. (P)—The State should stop leasing of its beaches for the purpose of drilling for oils, the Assembly Committee on Oil Industries decided today. It approved a bill introduced by Assemblyman Bliss of Carpinteria deleting from the present law right to lease such lands.

Bliss recently succeeded in having passed an emergency measure forbidding leasing of such lands until the bill approved today could be acted upon.

The tideland leasing measure particularly affects Hintington Beach and shorelines in Ventura and Santa Barbara counties. SACRAMENTO, April 2, (P)— Senator Fred C. Handy of Ukiah toin the Senate of his now muchsmended dog bill.

Each dog shall have attached to a
collar or to its leg a metal tag bearing the name and address of the
owner, or a city or county license.

Any animal running at large not so
tagged might be impounded by a
peace officer or, if caught killing or
worrying live stock or poultry, can
be killed. Handy's till has been
spousored by live-stock owners and
has weathered a considerable fight
at the hands of dog fanciers.

Senator Sanborn Young's bill prohibiting importation of cats into
game refuges and marking as predatory animals such animals entering refuges passed the Assembly.

CIUDAD DE MEJICO, 2 de Abril. El Coronel Lindbergh aterrisó en el campo de Valbuena a la 1:15 de la tarde, en un vuelo desde Brownsville, a razón de noventa milias por hora, es decir, que hizo las 475 milias que hay de distancia entre aquella población y la capital mejicana, en cinco horas diez minutos. Inmediatamente después de su arribo, el coronel se puso a examinar el aparato, probando el motor, etc. Apenas acababa de realizar su inspección, cuando llegó su novia, la señorita Morrow, acompañada de otras personas de su familia. Que tal? dijo ¿Cômo estás? contestó Lindbergh. Los dos sonreían y se estrecharon las manos. Después el aviador, siempre sonriendo, saludó a la señora Morrow y a la hermana de la novia, Isabel. Todos abordaron un automóvil de la embajada y partierron rumbo al edificio de la misma. Edgerton, president of the National Association of Merchants and Manufacturers, who arrived in Los Angeles yearday on a tour of the na m. in the interests of acouainting industrialists with national issues.

"We are the richest nation on earth and our bankers could do much toward helping foreign nations without undermining our own industries," he said at the Biltmore. At present we are facing the situation of seeing American money bolstering up the industries of the flood control or ganization report. The excavation for one of the piers supporting an arch was not showing very good rock. After the investigations the consulting board issued a report saying that the dam could be built at a cost of about \$1.007.650, but that it was doubtful if the results to be attained would justify such an expenditure.

The Board of Supervisors ordered the work to proceed. As the dam nared completion the unsatisfactory rock conditions light up on the mountainside were encountered. This entailed additional excavation and additional concrete. The constitution of the gravity type sections at the end has been determined as the only satisfactory and safe way out. It is estimated now in the result of these industrial invest-

patriotism after finding, as he testified, that lots of land really had been taken illegally from the government and he retermined to wage a public-spirited fight to get back for the government what he believes is its own. He testified in effect that the mere acquisition by homesteaders of lands developed into great value by someone else had become second to patriotism and so the fight was made and is to be carried on.

Among Wheeler's charges before the committee was that it had been said that "they" would spend \$100,000,000 to defeat the claims of homesteaders. Pressed by Senator Dale as to whom he meant by "they," Wheeler named the Irvine family, Joseph Sartori, Harry Chandler, Henry M. Robinson and others. Wheeler said he will call them as witnesses today and to them he added the names of William M. Garland, W. W. Aimes, J. B. Lankershim, Harold Ferguson, Louis Sentous, J. B. Van Nuys and many others. If the committee deems reasonable, Senator Nye, chairman, said, it may subpoens whomever it believes should be questioned.

As outlined to the committee by Wheeler, Pio Pico, Mexican Governor, turned over to Eulogio de Celis, a citizen, about 100 years ago when the country was not a part of the United States, some land in San Fernando Valley. By a devious process, Wheeler explained that in the first place Pico and Celis pulled off a "raw one" as to legality and in the next place after the country passed to the United States Celis just naturally gobbled up about the whole valley for his own. So the sum total down the avenue of years, according to Wheeler's testimony, is that all this land actually is United States government land and can be grabbed by any homesteader at homesteader prices, regardless of the years of intervening peaceful BACK TO PIO PICO

SETTLEMENT of the bitter contest between Mrs. Jeffie Rae Flannery, interior decorator, and her husband, Charles A. Flannery, civil engineer, over a divorce and the custody of their two children, loomed up yesterday.

Under the terms of an agreement, it is asserted Flannery will get the divorce, uncontested, while Mrs.
Hannery will be given the custody of their two children, Arainery appealed to the Appellate Court and was awarded custody of their two children, Harris, 10 years of age, and Martha 9.

Grove, who said that for fifty years he has been a searcher of records, testified that from what he can make out of the records, celis wrongfully got about fourteen leagues of land from the Mexican government through the Pico deal and then simply took enough surrounding land to make twenty-six leagues.

Senators Bratton and Dale several times brought out that many years ago Congress once enacted a law creating an investigating commission which went into the San Fernando Valley holdings, made a finding which was approved by a Federal court, offered means of appeal from the finding and upon none appearing quieted all ownership rights to the property.

All this, however, did not mean a thing to Wheeler, he asserted in substance, arguing that the commission did not proceed regularly in the first place and so everything that followed op that basis is all wrong, right down to this day.

STATE TAX ON OLEO

Taking a stand in behalf of the proposed measure now before the State Legislature, which will eliminate the existing State tax on oleomargarine, Neal P. Olsen, representing the Southern California Retail Grocers' Association, last Monday night addressed members of the Political League. Mr. Olsen, who is a candidate for City Council from the Fourth District, characterized the tax as unfair and discriminatory, chiefly affecting persons with small incomes.

Commissioner Thorpe, now candidate for Councilman, characterized the report as "applesauce," He moved that the commission vote to dismiss the four officers.

No action was taken on the motion, and the matter was settled for the day when a motion carried to make a thorough study of the case tomorrow.

At the request of the bureau of budget and efficiency an estimate of the amount of floor space required for the various departments to be housed in the proposed \$1,705,363.20 structure was provided by Deputy Chief Shand, in charge of city jails. He estimated the total floor space necded at 180,600 square feet, almost three times as much as is available in the present structure.

One novel feature requested is that an independent elevator, capable of carrying a patrol wagon with prisoners to the top floor of the jail be provided in the new structure.

prisoners to the top floor of the jail be provided in the new structure.

For a new jail at Lincoln Heights 52:130 square feet of floor space is requested in a three-story concrete structure. Provision is asked for a laundry in which all city and county laundry can be handled, so that prisoners may be put to work to learn the trade. Cost of the structure is estimated at \$412,203.93.

FUNDS ASKED TO MOVE

An appropriation of \$4500 was asked by the City Council yesterday by the Police Commission for the cost of moving the old City Hall at Venice to make room for the proposed new police station and court-room structure in civic-center plans at the beach. Cost of the new structure is placed at \$100,000. The Venice Chamber of Commerce has interviewed the commission, the Council and the Mayor on the project, with the result that Superintendent of Construction Brittain has been requested to place details of the proposed structure in the hands of the Mayor as early as possible.

If the man makes the dough under his own power it is his for keeps they take judicial office at all, to use it and he does not have to share it with merely to attain reputations which they and he does not have to share it with the woman who was once his companion. The judge, in fact, intimates that alimony is a temporary proposition and suggests that the woman is supposed to get out and hustle for herself. If she is capable of working and is not handicapped by the care of a family she is expected to take a job at the earliest possible moment. This would be quite a shock to alimony wives if it were made the rule, but the judges are all getting around to look at the situation in this light and in a few years there will be no such thing as perpetual alimony. CALIFORNIA PLAN A The plan offered to the House Agricultural Committee at Washington by Donald D. Conn, managing director of Associated California Fruit Industries, Inc., provides a method of making ef-fective the decisions of farm co-opera-

tive organizations which has many elements to commend it. In principle, it would seem that there should be some method of restraining a minority of producers in an industry from cutting the threats of the majority by unfair the throats of the majority by unfair competitive methods, yet that is the rock on which farmers' co-operatives have always split. Under Mr. Conn's plan, a co-operative organization com-prising 75 per cent of the growers would have the aid of the government in bringing the 25 per cent into line, first by obtaining preference in loans and second by actual compulsion.

It is the second feature that bears a somewhat dubious aspect in a country familiar with the principle that a man may do what he likes with his own and which freedom to sell in any market and at any price has never been seri-usly infringed. Perhaps Mr. Conn has mind methods of bringing pressure ort of actually forcing recalcitrante out of business; it is a point that needs clearing up. Yet no freedom is more than relative; it is also an established inciple that freedom must not be ed to the detriment of others. The problem is always to preserve the great-est measure of individual freedom con-sistent with the general welfare, and the most weight must always be given to

the latter.

Mr. Conn proposes a zoning plan for the organization of co-operatives, making each self-governing within its allotted territory. This also has merits, and that it would work well where all, or almost all, of a territory producing a given commodity can be brought within a single zone is fairly obvious. It does not appear so certain, however, that in the case of basic crops such as wheat, corn and cotton, where production is so widespread and conditions in the different areas are so radically different, that much could be hoped for from a zoning plan. How to keep two wheat zones from destructive competition with zones from destructive competition with each other, looks, on the face of it, like an unsolvable problem, unless a govern-ment board of arbitration was em-powered to bring them into harmony, and this would obviously destroy self-government within the zones.

But even if Mr. Conn's plan is found to be of only limited application, it is worth study for the assistance it offers in its fields. It has often been pointed out that the farm problem cannot be solved as a whole; it must be dealt with

solved as a whole; it must be dealt with phase by phase, since a single formula does not fit all cases and perhaps not even a majority of them.

There can be no question, however, of one thought Mr. Conn left with the committee—that any national action in the form of a subsidy is unsound. A subsidy is a remedy for an underdeveloped industry; in a temporarily overdeveloped industry; it can only make matters worse.

Wiping the Indian's Nose

DEDHAM (Mass.) March 27.—
ITo the Editor of The Times: I
This article appeared in a Boston newspaper yesterday: "Pawhuska (Okla.) March 26.—No longer will 'poor relations' of the Osage Indians be allowed to sponge on the hospitality of the oil-enriched tribe. Other tribesmen have paid extended visits to their rich Osage Indians in the man who, after the death of Howells, was called "the death of Howells, was called "th

sponge on the hospitality of the oil-enriched tribe. Other tribesmen have paid extended visits to their rich Osage friends, especially in winter months. So many came this winter that officials of the Osage agency decided their wards were being imposed upon.

If that is not wiping the Indian's nose, what is it? After suffering for centuries all kinds of abuse our American Indian is daintily lifted up with sugart tongs and laid on a rose leaf. If the Indian has one redeeming virtue, it is that he stands by faithfully those of his own race or tribe. Imagine going to your neighbor's house and telling your neighbor that he had too much company last winter and he must stop it. What good are the Indians' riches if they cannot use them as they see fit? Are Indians idiots?

Without the least doubt this is a critical time for the American Indian. It is now or never. Evidently strong underlying influences of which we know nothing have put and have kept the American Indian in the pitiful condition we find him today. In a few months more we shall know whether or not he is to remain a prisoner for no crime that he has committed, or enjoy the God-given freedom of his native country.

Pagan Origins?

LOS ANGELES, March 31.—
ITO the Editor of The Times: I your correspondent's objection to Easter because of its pagan origin touches a point on which we Christians should not be too tender, since carried to a logical end, it applies to every Christian festival and observance. True, Easter is a pagan festival representing the triumph of life (spring) over death (winter.)
Christianity took over not only the festival but the legends with their accompanying stories of supernatural births, etc. Similarly, Christianity adopted December 25, the pagan festival or solus invictus (the unvanquished sun) as the birthday of its founder.

Appropriating these practices and the pagan ideas of supernatural births, resurrections, etc., is not in the least to Christianity's discredit. As a new faith it had to accommodate itself to bellefs and practices already current. As Christians we may rejoice that it did so accommodate itself to bellefs and thus survived its pagan competitors, none of which was its equal in ethical teachings.

Jones Law Commended

PASADENA, March 29.—[To the Editor of The Times:] The opponents of prohibition continually whine because the law is not well enforced and they continually vote against measures to improve its enforcement. They took a sound trouncing in both the Senate and the House on the Jones bill which provides that first offenders may be sentenced to five years' imprisonment and a \$10,000 fine, or both. Its opponents in both houses played their whole bag of legislative tricks to either defeat the bill or pull its teeth. They did neither.

This act may be considered as the first definite step of the Republican party to face the responsibility put upon it by the recent election to pass legislation making prohibition more effective.

Accustomed as he is to being tossed about by rural constables and deputy sheriffs, Mr. Pyle was in a temper against the commissioners of the city of Trenton, who refused to sanction the performance of his twenty-one debutantes from wholesome home surroundings and the solo rendition of "Miserere" by La Belle Irene, a Chicago artiste, claiming to be the lady champion slaptongue baritone saxophone player. The lady champion slaptongue saxophonist was upset about the matter, too, and protested far into the night in the halls of the Hotel Trenton.

If this official ruling of the Trenton City Commissioners could be regarded as the first firm stand of an American governing body against the playing of the saxophone slap-tongue or otherwise, one might ap-plaud them for their courage. FORMER STAR

Ulbrickson is one of the principal reasons for Washington erew history. He was stroke of championship boats for three years under Rusty Callow. The position of stroke is the most responsible and therefore most difficult to fill. It requires meshanical skill, headwork and the billity to inspire men to follow a soble example.

With both California and Washington sweepsters attacking the stuary, the waters therein are curring at an unprecedented speed. He made a lot of all-American football teams as a tackle in a year when the going was tough—1920—when most of the good college players had two or three years of war-time competition under their belts.

He played professional football after graduation—and

made a big success of it.

And then he turned to wrestling a little over a year ago.

And he wen the heavyweight championship from Strangler

Who is he?

Dynamite Gus Sonnenberg. And he makes his first appearance in this city at the Olympic tonight when he wrestles Stanley Stasiak, the mam-meth Pole.

If you want additional information ask Lou Daro.

All I know is that the man beat one of the greatest wrestlers in the world—Strangler Lowis.

Butted him out of the championship because he couldn't stand this ex-collegian's head in his stomach—the flying teach.

And this newfangled hold—the hold so-called that sent Lowis to cover in 29m. 40s. and 2m. 22s. respectively—is the one that probably will send a packed house to the Olympic tonight to see what's new under the sup.

ANAIR MAIL letter from James F. Dougherty, the Baron of Leipspylle, has just reached port.

It was malled from Cincinnati the night of the LoughranWalker affair in Chicago, and among other things cites the reason why
the Baron passed up the bloodless hostilities in the Windy City,
"Why," quieries the Baron, "should I go to Chicago to see a couple
of fellows fight when I have a better fighter (Joe Anderson) that I
can see for nothing?
"The two best men they (Walker and Loughran) ever had wins
over are Hudkins and Lomski, and Anderson has decisive wins over
both these fellows.

"Walker won from Hudkins at Chicago, Loughran over Lomski at
New York, and Anderson defeated Lomski at Portland and Hudkins
in Los Angeles."

New York, and Anderson defeated Lomest at Portions and Realistic In Los Angeles."

So much for the Baron's argument. The letter reveals that Anderson after a three months' lay-off as the result of a flu attack goes to the post again this week. He fights Maxie Resembleom of Cincinnati lonight, and after that bout the Baron wants to bring his boy to the Coast for a rematch with Hudkins.

"If we can't get Hudkins, we will take Emanuel," the Baron adds.

LOOKING FOR HEAVYWEIGHTS R OSENBLOOM best Lomski a couple of weeks ago, so a victory by Anderson tomorrow night naturally will put him right back at the top of the heap again.

It was claimed by Tom Kennedy, manager of Sheridan, that his boy Sheridan was carrying the fight in order to give the cash customers a run. Kennedy says Roche will have to quit back pedaling and do a little leading this time.

"Windy" Winsor, manager of Roche, retoris that Roche will knock out Sheridan again.

Winsor says he took the rematch on one condition—that the percentage of the gate receipts given the fighters be reversed.

Roche got 15 per cent, Sheridan 25 per cent the first time out.

hackward.

This must be prevented. You want to have the hips in position to slide forward and through on the downswing along the line you wish to hit the hall. Keep the right knee slightly bent to do this.

When in the right position here you can finish the backswing correctly, as Alex Herd is aketched doing it. It's done by lifting the hands in a wide sweep up so the clubhead comes up and around over the shoulders, the left arm remaining straight. Notice particularly the hips movement and the matter of the distribution of weight at this point. This movement further pulls the left hip and shoulder around. Let us go further into this point tomorrow.

Unified operation of the Harbor Belt Line Railway by the four rail-

state Commerce Commission for five years, has been tentatively set for June 1, according to announcement yesterday by Walter B. Allen, chairman of the board of control and president of the Harbor Commission. Copies of the decision of the Interstate Commerce Commission have been received and formal action will be taken at an early date. That the permit and its modifications will be accepted was indicated yesterday by Chairman Allen. The provisions of the permit, in part, follow:

HERE are many excellent dentifrices on the market selling Lat a trifle above or below 50%—but is it necessary to pay that much? Why not a first class dentifrice at 25%—scientifically

Believing this to be a sound price, we created Listerine Tooth Paste at 25¢ for a large tube. It is the result of more than fifty rears' study of tooth and mouth troubles.

Now it is sweeping the country. Everywhere it is supplanting older and costlier dentifrices that accomplish no more.

MRS. THEODORE ROBERTS FOR OIL URB ADOPTED FILES SUIT ON ALIMONY

The question of whether the estate of a dead man can be compelled to pay alimony is raised in a sult filed yesterday in Superior Court by Mrs. Lucy G. Roberts, former wife of the late Theodore Roberts, "grand old man of the screen," who died December 14, 1928.

The suit is based ostensibly on a court order granting Mrs. Roberts alimony of \$100 a month while Roberts was living. According to the former husband were married July 13, 1830, and on January 22, 1912, she obtained a decree of separate maintenance in the New York courts. In October, 1917, she is said to have obtained a divorce from Roberts in California.

The complaint recites that Mrs. Roberts, who is now 70 years of age, Roberts alimony from Roberts in other than 10 years of age, Roberts alimony from Roberts in other than 10 years of age, Roberts alimony from Roberts in other than 10 years of age, Roberts alimony from Roberts, for our the rour of the section of a cour

APPROVAL NECESSARY

The order denies authority to the belt line to construct an extension of trackage at Los Angeles Harbor, without prejudice, and requires the Southern Pacific Company, the Salt Lake line and the Santa Fe line to report to the commission as required by valuation order No. 24, effective May 15, 1928.

The permit refers to the arguments presented by opponents of the unified operation plan.

"None of the applicants severally, or by means of any combination, could lawfully, without our approval, coutrol or operate the railroad property of others, nor delegate to any agent or association, however named, a right they did not possess themselves.

Russell H. Ballard of Edison Company Charged With Mental Cruelty

On the technical grounds of mental cruelty Mrs. May Spurgeon Ballard yesterday sued Russell H. Bal-lard, president of the Southern Calilard, president of the Southern Callfornia Edison Company, for divorce. The complaint was filed by Attorney Earle M. Daniels. It alleges that when the defendant went to a hospital last November for a five weeks' treatment. he refused to see Mrs. Ballard when she called to see him. After leaving the hospital, the defendant went to live at an apartment, taking all his personal belongings, the complaint states. Before this, Mrs. Ballard asserted, her daughter Harriet said she received a letter from her father, asking her to come from New York to Los Angeles and maintain an apartment

Pasadena High School may continue to pay the Pacific Electric fares of its students who live in Sierra Madre, according to a decision of the State Supreme Court, but County Counsel Mattoon may direct proceedings to compel the school district to advertise for bids for the transportation, according to Deputy County Counsel McFadden, who argued the case.

The Pasadena school district, which includes Sierra Madre, has been providing transportation according to the State law regulating such matters by giving Sierra Madre children tickets to and from their homes on the Pacific Electric. When County Auditor Payne raised the question of the legality of paying for transportation suit was started to have the law defined. The Supreme Court held it legal to pay such transportation if the children are in a separate city from the one in which the school is located.

THE WONDER ROUGE OF THE DAY ...

One of the lovellest affairs of the Easter season was the tea with which Mrs. Jefferson Paul Chandler of West Twenty-eighth street entertained at the Los Angeles Country Club yesterday afternoon honoring her attractive young niece, Miss Edith Shankland, debutante daughter of Mr. and Mrs. Fowler Shankland of Muirfield Road.

The decorations carried out a charming spring motif with a profusion of fragrant peach blossoms and foliage in the dining-room and on the tea table while great branches of acacia bloom were used in the living rooms and baskets and jardinieres of spring flowers and roses were attractively placed about. The guest of honor wore a becoming frock of beige chiffon and a corage of orchids completed the dainty costume.

Mrs. Joe Crail, wife of Representative Orail, was hostess at an attractively appointed luncheon at the Chapman Park Hotel yesterday. The smart event was given in honor of Mrs. Porter Dale, wife of Senator Dale of Vermont. Mrs. Dale is president of the Congressional Club of Women in Washington and prominent among the social affairs of the capital.

Little Miss Giadya Adelaide Crail also was hostess at an interesting event last Friday for a group of playmates, the occasion being in celebration of her sixth birthday anniversary. Those bidden to enjoy games and refreshments included Ruth and Jean Barker, James and Arthur Chapman, George and Joan Livingston, Patria Perry, Charles Graff and William Jellick.

HEALTH TEST HELD ILLEGAL

Council Gets City Attorney's Opinion in Food Case and Paves Way for New Inquiry

The opinion of City Attorney Stephens to the effect that the Health Department has no authority either to make physical examinations of food handlers compulsory or to charge fees for such examinations when they have seen the wisdom of co-operation between the railroads and the city for the joint use of railroad tracks to avoid the day and referred to its Health and Sanitation Committee.

There was some question at first son, that not only the City Attorneys as to whether it should go to that I new to only the City Attorneys when they have been most conversant with the problems of the belt line, he says, "have seen the wisdom of co-operation between the railroads and the city for the joint use of railroad tracks to avoid the duplication of facilities already existing and to save the city from the unnecessary expenditure of millions of dollars."

Nelson took the little- girl across the line and bought her some candy. She proceeded to get her face and clothes smeared with the confectionery. Her father remonstrated and Dorothy began to tell the world her troubles in a high-pitched soprano.

"Whose child is that?" inquired the stern voice of a Mexican officer, who met the pair on the street. And he was informed by Nelson that he was the father.

"Is this your papa?" the doubting official inquired of the already frightened Dorothy. "No." sobbed the youngster, "that's daddy." And thereupon the official, being advised by the child herself that this wasn't papa, reached to pick her up and take possession. He was given a shove by Nelson, who hadn't heen introduced properly and didn't know it was the Chief of Police he was shoving.
"I was in the Chief's office for half an hour trying to explain the situation," said Nelson this morning. "But it required a trip to Mexicall for both my bosses before they were convinced that I hadn't kidnaped my baby. She couldn't help the situation because I was just Daddy' and not 'Papa' to her and it seems the Mexicans didn't get this daddy business. I've got

The witness was unabashed, however, and shortly after launched into the description of a cement plant in which a new suit donned at the door, or a shoe shine imposed at the same place, would be undamaged by a trip through it.

"Say," demanded Attorney Smiley, "will you define dust for me?"

"Dust," said the witness, "is a powder fine enough to be carried by air. Every time you walk you kick up a dust."

The commissioners had another laugh.

warm remarks were exchanged by counsel.

The first clash came when Attorney Bmiley demanded of Attorney McNitt if the latter would guarantee that Alphonzo E. Bell, controlling the Mountain Park Company, and S. W. Traylor and Chapin A. Day, who, it is proposed, actually will operate the rock-crusher and quarry, would be available for questioning on demand. Attorney McNitt would not say that they would, whereupon Smiley asserted that they would be subpoensed.

BLASTING DISCUSSED

At an evening session of the hear-ing last night Robert Gordon was ing last night Robert Gordon was placed on the witness stand and qualified as an expert on quarry blasting operations. He testified that in company with two others he had made an examination of the Los Angeles-Mountain Park holdings and had recommended 200 pre-liminary blasts in 15-foot drill holes to expose the face of the rock and to expose the face of the rock and make possible the detonation of ap-

to expose the face of the rock and make possible the detonation of approximately 70,000 pounds of black powder that would dislodge 276,000 tons of rock, estimated as sufficient for the operations of the rock crusher for one year.

Gordon further testified that none of these operations would cause noise, dust, or concussion that would result in discomfort to any one outside of the radius of a city block. Wheri, on cross-examination, Gordon asserted he would stake his reputation on these assertions, Attorney Smiley challenged him to make an actual test with the powder. "You'll get blasted plenty before this is over." answered Attorney McNit for the witness. "Yes, but how long is it going to take?" demanded Smiley. "I'm serious about this offer."

"Well, Gordon is supervising the preparation of a blast for us now," said the company's attorney. "that will be discharged before we finish our case here."

"And when will that be?" questioned Smiley.

"By May 1," was the answer.
Gordon was still on cross-examination when the hearing adjourned, to reconvene tonight at 7:30."

The attractive picture of spotless cement plants was presented by M. A. Eiben, president of the Northern Blower Company of Cleveland, a witness for the organization seeking the permit. > Chamber Music Program Incites Audience to Unusual Warmth

BY ISABEL MORSE JONES st concert in Los Angeles last evelast concert in Los Angeles last evening for a large and warmly appreciative audience. The program began with a Mozart quartet in D major played so beatifically that it will forever afterward be identified with this ensemble by those who were fortupate enough to hear it. Bloch's Pastorale, which might well have been named a Swiss Idyll, was a work of new beauty under their hands and the autobiographical quartet by Smetana was an impressive exposition. The equally interesting encores in the order of their playing were: Interludium, by Zlazounoff; Canzonetta, by Mendelssohn, and a Schubert Scherzo.

The Mozart opportunities for impeccable taste, happiness of mood and unity of intention were all taken advantage of. It was Mozart of aristocratic lineage and rare spiritual beauty.

Ernest Bloch's Pastorale for four strings is redolent of switzerland—summer Switzerland near Geneva where the edelweiss and the mushrooms grow. It is atmospheric in its wonderful overtones and Bloch harmonies but is also strongly supported by that sense of mountainous power which the Bloch genlus creates. ning for a large and warmly ap-

creates.

Smetana's quartet in E minor,
"From My Life," was a revelation.

The work is of great difficulty and
few quartets rise far enough above
them to aid in the delineation of
the story. The Flonzaley's worked
it up to a stunning climax in the
finale and imbued all four movements with understanding and tender poetry.

The quartet is to play at the Pasa-

der poetry.

The quartet is to play at the Pasadena Playhouse on Sunday sfternoon and Mesars. Pochon and Moldavan will be heard in a newly formed quartet for a fourteen weeks chamber music series et mills College this summer, as a gift to music from Elizabeth Sprague Coolidge.

With the festivities directed by Sid Grauman, Irving Berlin, com-poser, was given a spectacular wel-come back to Hollywood by lead-ing members of the film colony at

invitation to be an honor guest at a forthcoming midnight matinee at "Broadway Melody." at Grauman's Chinese. Among the more prominent guests participating in the Berlin welcome were Charlie Chaplin, Joseph M. Schenck, Nicholas M. Schenck, Nicholas M. Schenck, Nicholas M. Schenck, Louis B. Mayer, Irving G. Thalberg, Mike Levee, John Considine, Harry Rapf, Hunt Stromberg, Larry Weingarten, Jack Warner, Darryl F. Zanuck, Edward Mannix, John Gilbert, Fred Niblo, Al Jolson, Harold B. Miss Ware is at present essaying the characterization of Queen Dominica in Edward Everett Horton's presentation of "The Swan," and her assignment to the role of the aristocratic lady of "The High Road" will be good news to her many fans among Los Angeles audiences.

Actress in Two Places at Once

If Lois Wilson doesn't tire of hearing herself say the words of Mr Molnar's comedy, "The Swan," at the Majestic Theater, she can run right across the street to the Tower right across the street to the Tower and listen in on the lines of "Conquest," which she is playing with Monte Blue. Being in two places at once does have its advantages. Lois is to sing her "swan" song this week, as the long run of "The Swan" comes to a close Saturday night, to make way for Horton's production of "The Hottentot."

Miss Wilson has signed up for the lead in a production at one of the large studios.

EUROPEAN DIRECTOR SIGNS Rouben Marmoulian, the Europsan who staged "Porgy" and "Wings Over Europe" for the New York Theater Guild, has been signed as a director for Paramount and begins his motion-picture career at the Long Island studio. Marmoulian, was brought to America by George Eastman, president of the Erstmar Kodak Company, to handle stage presentations in the Eastman Theater in Rochester. There he was discovered by the Guild and brought to Broadway, where he startled the theater world by his staging of "Porgy."

"I have been working on my oration for six months and because of my hours as waiter have been able to utilize less than an hour a day in its preparation." said Meyers after the contest. "Both my father and mother were born in Poland and my mother passed away nine years ago. To her I dedicate my success today, for she told me never to forget that I owe allegiance to America, as I was born here, and that as a citizen of America I have a duty to perform."

The winner began as a buss boy at the Blitmore three years ago. "I am glad that I began at the bottom, for I am more happy in my work now and know that it will lead to something better, made possible by America, as I was born here, and that as a citizen of America I have a duty to perform."

The winner began as a buss boy at the Blitmore three years ago. "I am glad that I began at the bottom, for I am more happy in my work now and know that it will lead to something better, made possible by the epportunity for education which America gives to all," said Meyers.

CALEXICO REPORTS

He discussed the title of his oration, "The Constitution in the Upbuilding of the United States," in a manner which directed a deepseated geverence for its tenets of liberty and respect for the men who framed it.

The judges were L. J. Beaufait, student-body adviser; Mrs. Elsa Smith and Benjamin Weiss, instructors. Jimmy Alkire, student-body president of the Tuesday afternoon section, presided and community singing was led by A. Rae Condit.

dit.

Calexico reports that Ruth Correll, a member of the junior class of the Calexico Union High School, was given first place in the local elimination by the unanimous decision of the judges. It was the first time the young lady has appeared in public competition. Her subject was "The Citizen, His Duties and Privileges Under the Constitution." She will compete in the Imperial Valley finals on April 12 to be held at Central Union High School of El Centro.

Our Sick and Injured
A national health official recently said that twenty out of every 1000 persons were sick every day of the year, and that 10 per cent of them required hospital care. Last year there were \$7,000 deaths from accidents, or almost three times as many as in the United States Army in the World War. This illness was extremely costly to the community as well as to the individual, \$1,500,000 being paid every day for doctors' fees.

ing all the months of my friendship with Ben Getzoff, that Getzoff was dealing with Jack Bennett."

Getzoff, according to his attorney, is resentful of the attitude assumed by the convicted District Attorney. The revelations made by Getzoff are considered in the nature of a "trimmed down" confession of his own and Keyes's complicity in the bribery scandal. During all the months of investigations and trial the former tailor never issued a statement, or permitted his attorneys to make one for him.

But when his attention was called to the "life story" of his former friend, he became angry.

He consulted Attorney Mark F. Jones, who had handled much of Getzoff's civil business. He was too ill to leave the hospital so Attorney Jones prepared the statement at the bedside and made it public.
